Vision Our

At Chance Alive International, we envision a world where vulnerable communities thrive with resilience, empowered by clean water, flourishing agriculture, and disaster-ready communities. Our commitment to lasting change and sustainable practices drives us to be a global force for transformative empowerment, shaping a future where every individual has the opportunity not just to survive, but to truly thrive.

Our Mission

Chance Alive International is on a transformative journey, committed to empowering vulnerable communities for lasting change. We stand as a beacon of hope in water, sanitation, livelihood, agriculture, and disaster management. Our innovative, comprehensive strategies envision clean water revitalizing communities, resilient agriculture flourishing, and disaster management building communities that withstand the unpredictable. We don't just address symptoms; we tackle root causes, advocating for sustainable communities in the face of climate change. Our belief is simple: every individual deserves a chance to thrive. Join us in this mission of empowerment, where each action shapes a resilient future. Chance Alive International: Empowering Lives, Transforming Communities, and Shaping a Resilient Future.

Youth Empowerment

In our humanitarian efforts, we forge strategic alliances within communities to address their most urgent needs. Our impactful mentorship program has already touched the lives of over 2,300 youths, many of whom confront challenges related to criminal activity and substance abuse. These at-risk youths benefit from our life skills program, centered on positive decision-making and skill-building. We inspire them to embrace responsibility, dependability, and contribute positively to their communities, guiding them towards a future marked by success and fulfillment.

PSYCHOSOCIAL SUPPORT AND MENTORSHIP:

Creating a supportive environment where they can express themselves, receive guidance, and build resilience contributes to their emotional well-being and personal development.

FINANCIAL LITERACY AND ECONOMIC EMPOWERMENT:

- Education on financial management and literacy.
- Programs that promote economic independence and financial skills.

YOUTH ENTREPRENEURSHIP PROGRAMS:

- Initiatives that support and encourage entrepreneurial skills.
- Start-up incubators and business development programs.

Community Psychosocial support

At Chance Alive International, our community engagement involves training diverse Community Aid Workers (CAWs), including doctors, nurses, social workers, caregivers, and others. They undergo basic Psychosocial Intervention Techniques training, enabling them to support community members in need. Collaborating with local health institutions, child protection facilities, and women's welfare groups, we utilize existing structures to reinforce a healthy psychosocial environment. Together with stakeholders, we've crafted a toolkit for Psychosocial First Aid (PFA), facilitating joint interventions with our trained beneficiaries. Our role is to create a network of skilled individuals collaborating to enhance child programs and better their communities.

Water & Sanitation

Through innovative approaches and community engagement, we aim to create a future where every individual has reliable access to safe water and improved sanitation, laying the foundation for healthier and more resilient communities.

Waste Management

Chance Alive International, our Waste Management Program is a vital initiative aimed at fostering sustainable and responsible waste practices within communities. We recognize the pressing need to address environmental challenges and promote a cleaner, healthier future. Through this program, we implement comprehensive strategies, including waste reduction, recycling education, and community engagement.

Relief Response

At Chance Alive International, our Relief Response program is a swift and compassionate initiative designed to provide immediate aid and support to communities facing crises and emergencies. Whether in the aftermath of natural disasters, conflicts, or other challenging circumstances, our goal is to offer timely assistance to alleviate suffering and help communities rebuild.
